

Included with most control shipments is a literature binder. This binder includes installation instruction manuals, electrical schematics, replacement parts listings, an operator safety pre-

caution pamphlet, danger signs, our latest catalog, and a booklet entitled *Mechanical Power Press Safety*. These publications must be fully understood before any retrofit installation begins.

OSHA STANDARDS

Since the products that may be purchased can never overcome a mechanical deficiency, defect or malfunction in the machine itself, OSHA has established certain standards for employers (users) to ensure that the machines used in their plants, factories or facilities are thoroughly inspected, and are in first-class operating condition before any of the purchased products are installed. Please see pages 262 through 285 for CFR 1910.211, 1910.212, 1910.217, 1910.219 and 1910.147. These are the OSHA standards an employer must comply with for mechanical power presses, general machine safeguarding, mechanical power-transmission apparatuses and lock-out/tagout. OSHA's Code of Federal Regulations can be purchased by contacting:

U.S. Government Printing Office
P.O. Box 371954
Pittsburgh, PA 15250-7954
(202) 512-1800
<http://bookstore.gpo.gov>

OTHER SAFETY SOURCES

This catalog does not cover all aspects of a safety program. There are many publications on the subject of safety. Some sources for publications that are useful in organizing and implementing a safety program for power presses are as follows:

1. National Safety Council
1121 Spring Lake Drive
Itasca, IL 60143-3201
1-800-621-7619 ext. 2199 • www.nsc.org

See page 238 for a list of manuals available.

2. ANSI (American National Standards Institute, Inc.)
25 West 43rd Street, 4th Floor
New York, NY 10036
(212) 642-4900 • www.ansi.org

OR

AMT—The Association for Manufacturing Technology
7901 Westpark Drive
McLean, Virginia 22102
(703) 893-2900 • www.amtonline.org

See page 238 for a listing of the B11-series standards available.

3. National Institute of Occupational Safety and Health (NIOSH)
4676 Columbia Parkway
Cincinnati, OH 45226

For additional safety information and assistance in devising, implementing or revising your safety program, contact your state and local safety councils, insurance carriers, national trade associations and your state's occupational safety and health administration.

ROCKFORD SYSTEMS DVD

PLEASE CALL: **1-800-922-7533**

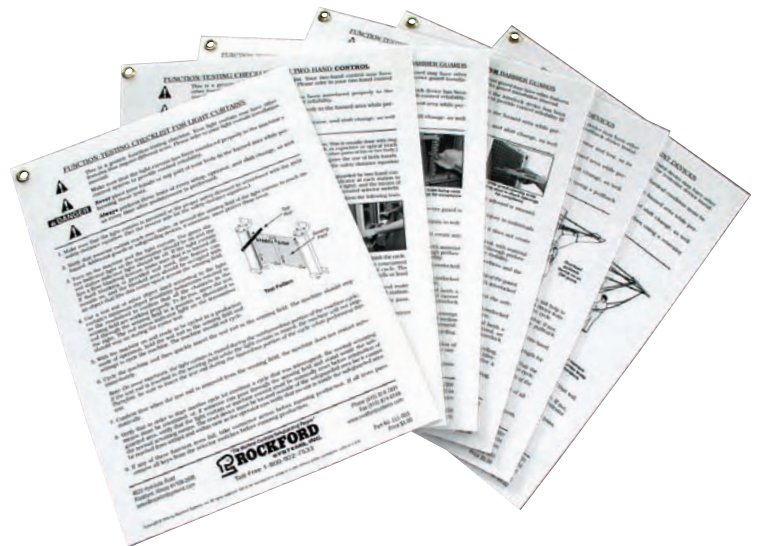

PART No. LLL-054
Press Brake Safeguarding DVD
 18 minutes

Disclaimer:

It is recognized that the content of this DVD cannot address all situations and problems arising out of the subject of machine safety. Accordingly, the producers, their agents, employees and all other parties associated with the development, production, printing and distribution of this presentation shall not be subject to any obligations or liabilities whatsoever with respect to damages alleged to have arisen out of the production or viewing of this presentation.

FUNCTION-TESTING CHECKLISTS

Function-testing checklists are available for various safeguards. Each checklist is laminated and has a grommet in the corner so it can be attached to a machine or guard for easy access.

Part No.	Description
LLL-055	Function-Testing Checklist for Light Curtains
LLL-057	Function-Testing Checklist for Two-Hand Control and Two-Hand Trip
LLL-058	Function-Testing Checklist for Point-of-Operation Barrier Guards
LLL-059	Function-Testing Checklist for Perimeter Barrier Guards
LLL-060	Function-Testing Checklist for Pullback Devices
LLL-065	Function-Testing Checklist for Restraint Devices
LLL-066	Function-Testing Checklist for Gates
